Date: 11.05.2019

**Dear Parent,
Greetings for the day!**

As the summer holidays are round the corner, we are organizing a **summer activity program from Monday, 13th May 2019**. This week long program aims to nurture creative skills in children, one at a time. Each age group and class has been allotted one skill that will be taught to all kids together, without allowing any choice. This will help them to learn from each other and together.

Please note the following details:

- **The school timings from Monday onwards will be 7:20am to 1:00pm.**
- **Children will come in proper school uniform.**
- **Current Time Table will continue.**
- **All activities will be done in classrooms, where most of the material will be provided by school.**
- **However a little backup material will be required from home, which the teachers will keep informing you. Children will put up their presentations on Saturday for all to enjoy.**

This program would be a gateway for the little ones to learn to work with each other and adult mentors and build relationships.

Looking forward to an enjoyable time.

**Regards
School Office**
